Rezwanul Hassan

Front-End Developer

Motivated computer science graduate from the National Institute of Technology, Kurukshetra, with a successful transition from family business to pursue a true passion for software development. Currently honing skills in front-end development through a comprehensive program with Meta on Coursera. Proficient in HTML, CSS, JavaScript, and React.js. Seeking a junior developer position in a renowned organization to leverage technical expertise and contribute to innovative projects.

Projects

○ Project Restaurant Billing System

In this restaurant billing system, I employed HTML5 and CSS3 for structure and styling, Bootstrap 5 for responsive design, and Vanilla JavaScript along with jQuery for dynamic functionality. The project incorporates a viewport meta tag for responsiveness and integrity attributes for added security.

○ Project Calculator using React

React: The core library for building user interfaces in a modular and reusable way, React DOM, React Hooks (useState, useRef), ReactDOM.createRoot, CSS, HTML5, JavaScript (ES6+), Git, Jest, Bootstrap 5

○ Project Portfolio

Employed HTML5, CSS3, Bootstrap 5, JavaScript, Es6, and jQuery, Meta-links to incorporate the page.
